

MapQuest: Navigation & Maps

****About MapQuest: Navigation & Maps****

MapQuest allows users to get to their destination as quickly as possible. The intelligent navigation app uses up-to-date traffic information for route planning and navigates the user reliably and safely through the streets with the aid of a special voice navigation system.

With MapQuest, you can plan your routes more effectively. The navigation app does not only navigate you to your destination with the help of voice navigation, but also checks the current traffic reports and route closures regularly. Once a faster route is found, the app will show you an alternative route. You also have the option to save your most used addresses, such as your work address, in the app. If you are looking for nearby restaurants or gas stations, you can have them displayed in the app.

****MapQuest: Navigation & Maps - Features:****

- **Reliable Navigation:** With MapQuest you always get to your destination as fast as possible. Since the app always has up to date maps, it navigates you reliably to any destination of your choice. To help you focus on traffic while navigating, the app uses voice navigation. You can see in the app not only the route for cars, but also the route for pedestrians.
- **Always the fastest route:** The app constantly checks the latest traffic reports as well as route and road closures during navigation. If there is a traffic jam or closure on the route, the app calculates a new route and displays it within a few seconds.
- **Get home fast:** MapQuest offers you the possibility to save addresses that you use most frequently. So you do not have to enter the address every time you want to go home or to work, for example.
- **Share Your Location:** In order that your friends and family know exactly where you are and when you arrive, you can easily share your estimated time of arrival and location with them.
- **Find places near you:** If you are looking for nearby restaurants, bars or gas stations, you can have them displayed on the map. Choose a category and the app will show you e.g. all restaurants in your area.
- **Breakdown service:** If your car breaks down, you can contact the breakdown service with just one click via the app.

Conclusion: MapQuest: Navigation & Maps is a navigation app, which convinces by many innovative features such as sharing the location.
