

McAfee Mobile Security

****About McAfee Mobile Security****

McAfee Mobile Security is a free antivirus application for smartphones and tablets. The app detects viruses and malware reliably and quickly and can improve the performance of the device.

With McAfee Mobile Security your smartphone or tablet is perfectly protected. The app does not only detect viruses, malware or unsecure networks, but also offers your maximum data protection in cases of e.g. thefts. You can optimize the performance of your device by special features like the Battery Optimizer or by following your use of data.

****McAfee Mobile Security – features:****

- The free antivirus application: Because of McAfee your smartphone or tablet is always perfectly protected against viruses, malware or unsecure networks. If the app detects a virus, it will be removed within a few seconds.
- Optimized devices: The app cannot not only detect viruses, but also optimize the performance of your device. The app clears e.g. your RAM or follows your use of data. The special Battery Optimizer predicts the expected remaining time of your battery and ensures a longer operation.
- Maximum data protection: McAfee Mobile Security has got many special features which ensure a maximum protection of your data. Features like the Capture Cam, the device lock or the remote deletion of data make sure that your data is always perfectly protected, even in cases of thefts. With the help of the app you can also locate your smartphone or tablet quickly and easily. The special S.O.S feature saves the last location of your smartphone or tablet before the battery is empty.
- Data protection: You cannot only decide which apps can be accessed by third parties but also block single apps for other persons. Like that you make sure that only you have access to confidential or personal data.

Conclusion: With McAfee Mobile Security the security of your device is guaranteed. The app does not only detect viruses or malware but also offers you many helpful features which protect your data and your device in cases of thefts. McAfee Mobile Security allows you to optimize the performance of your device easily.
