

Opera Mini web browser

****About Opera Mini web browser****

The Opera Mini web browser allows users to surf the web quickly and securely while saving data.

The Opera Mini web browser does not only give you quick and secure access to your favorite websites, but also saves a lot of data. In addition, you can easily save your favorite pages in the app and use private tabs, so that visited pages do not appear in the browsing history.

****Opera Mini web browser - Features:****

- Integrated ad blocker: Opera Mini web browser advertises that it can save a lot of data. The integrated ad blocker of the app does not only ensure less used data volume, but also no annoying ads. This allows you to surf undisturbed. This ensures that your data volume is not unnecessarily strained.
- Surf privately: If you do not want, that web pages you visit appear in your browsing history, you can use the app's private tabs. Any pages you visit in private mode will not be saved.
- Save your favorite pages: Webpages that you visit often, can easily be added to your favorites. To do this you just have to touch the + key. Now you have the choice whether you want to save the page in your speed dial, add it to your bookmarks or read later in offline mode.
- Track how much data has been saved: In the app, you can always track how much data has already been saved. This ensures that you get a better feeling when you're on the Internet with Opera Mini web browser.

Conclusion: Opera Mini web browser is an efficient and fast browser for your smartphone or tablet, which saves data at the same time.
