-**Break through the defense:** In Angry Birds, it is your main aim to break through the pigs' defense. The pigs have stolen all eggs from your Angry Birds and endanger the birds' survival. In order to break through the pigs' defense, you have to use the unique forces of each Angry Bird. Bombard the defense with the birds and bring it down like that. In order to break through the defense fast and efficiently, you have to deftly choose the right birds and respect some physical basic knowledge.

-**Every day a new experience:** In Angry Birds you can play more than 650 levels in 15 episodes. A long gaming fun awaits you which will surprise you time and time again. You can also participate in daily challenges. If you reach the "List of the Best", you receive numerous rewards.

-**Power-Ups:** With the help of special power-ups you can strengthen the unique forces of your Angry Birds. By using the King Sling, your sling can reach its maximum force, the Super Seeds enlarge your bird and the so called Birdquake destroys the pigs' defense once and for all.

-**Help of the Mighty Eagle:** If you are stuck in a level, you can count on the help of the Mighty Eagle. This super strong bird chases the pigs away immediately. But it should be noted that you make use of the Mighty Bird only once in an hour. Furthermore the Mighty Eagle is a one-time In-app purchase so that additional costs incur for you.

Conclusion: Angry Birds impresses with a colorful game design and a thoughtful game principle. Angry Bird is a funny game for young and old which can be quite challenging and often requires logical thinking. Use your Angry Birds deftly and think of the best tactic to bring the pig's defense down as fast as possible.
