****Bloons Supermonkey 2 - Features:****

- Burst all bloons: Bloons Supermonkey 2 is all about the so-called bloons, who have besieged the city of Monkey Town. You control the protagonist Super Monkey, who has been commissioned to liberate the city from the colorful balloons. To shoot bloons, you have to fly through the air in your plane and make the colorful bloons burst by firing. Once you have eliminated all bloons from the field, you have completed the level successfully.
- Collect blops: If you made bloons burst, they'll leave the so-called blops. You definitely have to collect these red balloons, because they are used in Bloons Supermonkey 2 as a currency with which you can buy new weapons, for example.
- Use over 90 weapons: With a plane alone you cannot destroy many bloons. That's why you need to equip your plane with different weapons. With the help of these weapons, you can then make more bloons burst at once. Equip your plane, for example, with special weapons like the Yeti or the Sidewinder Ace and be even more effective.
- More powerful with power-ups: In Bloons Supermonkey 2 you not only have over 90 different weapons, but also 40 uniquely powerful power-ups available, with which you can complete the level even faster. With the Explosive Shots or the Sun God you destroy bloons more effectively.
- Compare with friends: Compare your level rank with your friends' achievements and find out who's the best bloons shooter in your circle of friends.

Conclusion: In Bloons Supermonkey 2 more than 60 colorful and fast-paced levels await you in which you have to make bloons of any formation burst. For all players who need more variety, there are also the so-called diamond challenges, which are quite difficult to solve.
