

Call of Duty: Black Ops Zombies

****About Call of Duty: Black Ops Zombies****

With the mobile game Call of Duty: Black Ops Zombies, the popular Call of Duty console game can now also be played on smartphones and tablets. The task of the player is to kill zombies and to survive as long as possible.

In Call of Duty: Black Ops Zombies you'll experience an action-packed zombie shooter, which has been specially redesigned for mobile devices. You have a total of three maps available, where you can hunt and kill zombies. Your only goal is to kill as many zombies as possible and survive as long as possible. Once you've reached a certain score, you can also access the special arcade mode, where you'll be rewarded with another 50 exciting levels.

****Call of Duty: Black Ops Zombies - Features:****

- Hunt Zombies and survive: Call of Duty: Black Ops Zombies is a survival shooter. This means that you not only have to kill zombies, but at the same time survive as long as possible. The longer you survive and the more zombies you kill during the game, the higher your score. There are three different maps available. Choose between the maps "Cinema of the Dead", "Acension" or "Call of the Dead" and get ready for some tough zombie action.
- Alone or as a team: You can play the game alone or rely on the help of teammates. Team up with three other players to destroy zombies even more effectively and protect each other. Since very recently, there is also a special voice chat available that allows you to communicate even better and make arrangements.
- Score a lot of points: In Call of Duty: Black Ops Zombies, it's important to score many points. With these points you can, for example, buy new weapons or unlock new objects.
- Dead-Ops Arcade: Once you have won 4 coins, which means that you have scored enough points, you can access the special Dead-Ops Arcade mode. Here you will find 50 exciting levels, which keep challenging you.

Conclusion: Call of Duty: Black Ops Zombies brings the popular zombie shooter on your smartphone or tablet. A special aspect about this mobile game is that you can access not only three exciting and varied maps, but also the special arcade mode. Plus, you can team up with three other players via Wi-Fi.
