

Clash Royale

****About Clash Royale ****

Clash Royale is a real-time multiplayer game which uses well-known characters of the popular Clash of Clans game.

The main target of Clash Royale is the fall of enemy kings or princesses as well as the rise in arenas. To achieve this target, the player has to collect powerful cards and improve them. If the player owns a strong card deck the duel between opponents all around the world can begin.

****Clash Royale – how does it work? ****

- Collect and improve cards: Clash Royale is all about collecting cards. If the card deck is strong, the chance to defeat the opponent is higher. To build a strong card deck it is necessary to permanently collect cards and improve them. In Clash Royale you can use well-known cards from Clash of Clans like troops, spells or defenses, but also cards with the popular Clash characters the Royales. Royales cards are for example Princes, Knights or also Baby dragons.
- Dispossess kings and princesses: To defeat an opponent you have to knock the enemy king or princess from their towers. If you accomplished this mission, you can win different prices like trophies or crowns.
- Form a clan und become stronger: In Clash Royale it is very important to form a Clan. In your Clan you can share cards or found your own battle community. Use the help of other players to win as many duels as possible.
- Fight duels with players from all around the world. In Clash Royale you can compete with players from all around the world in real-time. If you defeat the opponent, you can take their trophies to become even stronger.
- Rise in arenas: The main target of Clash Royale is the rise in the overall eleven arenas. With gotten or lost trophies you can rise or descend within the arenas. The different arenas are distinguished by different ecosystems. In Clash Royale you can play for example in lava arenas, ice arenas or a jungle arena. You can find different cards in every arena which can improve your card deck. The victory is yours.
