

# Farm Heroes Saga

## **\*\*About Farm Heroes Saga\*\***

Farm Heroes Saga is a puzzle game from King.com who already developed popular games like Candy Crush. As well as in Candy Crush, players in Farm Heroes Saga have to combine at least three fruits or vegetables with another in order that they disappear.

Compared to the popular puzzle game Candy Crush, in Farm Heroes Saga everything revolves around fruits and vegetables. In this game you don't have to bring candies but at least three fruits or vegetables in a row in order that they disappear. Use different boosters or power-ups to solve hundreds of colorful levels. You can also compete against your friends and compare yourself with other players from all over the world on the "List of the Best".

## **\*\*Farm Heroes Saga – how does it work? \*\***

-Combine fruits: Farm Heroes Saga is a colorful puzzle game from King.com, the developers of popular games like Candy Crush Saga or Bubble Witch. Farm Heroes Saga generally follows the same game principle as the popular mobile game Candy Crush, though replacing the candies by colorful fruit and vegetables. Your task is bringing at least three fruits or vegetables in a row in order that they disappear. In each level you are confronted with different challenges which have to be solved before you have no more moves. In Farm Heroes Saga not only combinations with three but also with four or five fruits are possible. Here, the principle applies: the longer the row the more points you score.

-Solve numerous levels: In Farm Heroes Saga you have to solve hundreds of different levels. In order that the playing pleasure never ends, new levels are biweekly published. If you solve a level, you'll win special magic beans by which you can activate the so called Farm Club.

-Booster and Power-Ups: In order to solve the task of a level, you sometimes rely on the help of Boosters and Power-Ups. These features help you to solve the level successfully and give you new strength.

-Play with friends: You can easily play Farm Heroes Saga with friends and acquaintances.

Compete against friends and compare yourself with acquaintances in the "List of the Best". You can also give extra-lives to each other and share Boosters and Upgrades.

Conclusion: Farm Heroes Saga is, like Candy Crush Saga, a colorful and funny puzzle game with high addiction potential. In contrast to the popular prequel, Farm Heroes Saga is not about candies but fruits and vegetables: Combine fruits and vegetables with another in order to solve the tasks of the numerous levels. Since the game works closely with social networks like Facebook, you can experience the playing pleasure together with your friends and acquaintances.
