## **\*\*About Five Nights at Freddy's\*\***

Five Nights at Freddy's is a horror game for smartphones and tablets, in which players have to watch creepy robot stuffed animals for five nights.

In Five Nights at Freddy's you get a job as a security guard, who has to watch the robot stuffed animals of a famous pizzeria at night. While the stuffed animals are in a good mood during the day and entertain guests, they mutate at night to nasty creatures. You watch the action at night on different security cameras and have to intervene as soon as one of the stuffed animals leaves its place. But since you have only a limited amount of power available, with which you can turn the light on and off and operate security doors, you have to use the electricity sparingly.

- Watch the robot stuffed animals: At the beginning of the game you get a job as a security guard in a popular pizzeria. This pizzeria advertises above all with its animatronic stuffed animals that entertain both children and adults during the day. Unfortunately, these stuffed animals mutate at night to nasty creatures, which want to attack humans. Your job is to watch these creepy robots during five nights. To keep an eye on Freddy Fazbear and his two friends, you have to keep all security cameras in view.
- Use your power sparingly: Although you have lights and secure doors available to protect you from the stuffed animals, the power you can use for this protection is limited. When there is no power left, you will not be able to turn on the lights or secure a door. Make sure that you use the electricity sparingly, so that you have sufficient electricity at the end of the night.
- Find the robots: If you see on the monitors that the robots are no longer in their places, you have to find them with the help of numerous security cameras. Search all rooms of the pizzeria, find the stuffed animals and make sure that the scary robots cannot reach you.

Conclusion: Five Nights at Freddy's is not for the faint hearted. In the game you will not only find scary robot stuffed animals, but also numerous jump scares await you. Since you only have a limited amount of power available and you have to play the game in the dark at some points, the game provides adrenaline and horror.
