

Infinite Flight

****About Infinite Flight****

Infinite Flight is a flight simulator for smartphones and tablets. Users can choose from a wide range of aircraft, enjoy HD landscapes and experience detailed airports and machines.

In Infinite Flight you can play the role of a pilot. You have many different aircraft available, from traditional airliners to special military aircraft. The simulation app also convinces with high-resolution regions and detailed machines and airports. Another special feature is that you can always customize the flight individually. You have the possibility, for example, to set the time of day or the weather conditions during the flight. Control the aircraft, ensure a safe start and a smooth landing and experience great scenery during your flight.

****Infinite Flight - Features:****

- Wide range of aircraft: Infinite Flight offers you many different aircraft and aircraft types. No matter if you prefer to fly an airliner, general aviation or even a military aircraft - in Infinite Flight you can sit in the cockpit of any plane. As the aircraft and cockpits are also displayed in great detail, the pleasure of flying is even more realistic.
- Experience unique landscapes: During your flight, you can enjoy high-resolution landscapes. The HD satellite imagery and precise topography ensure that you experience a unique and interesting flight, where there is always something new to discover.
- Visit large airports: Of course, the flight simulator not only has high-resolution landscape and satellite imagery, but also many national and international airports. Head for the world's largest airports and take off and land on the main runways and taxiways.
- Customize your flight: In order to enjoy a truly successful flying experience that meets your needs and wishes, you can make some settings regarding the flight. For example, you can set what time of the day you want to fly or which weather you want to have during your flight.

Conclusion: The flight simulation Infinite Flight is absolutely recommendable for flight fans as well as for flight professionals like pilots. The app is a really successful flight simulation, which impresses above all by impressive HD graphics, detailed representations and customizable flights.
