

# MONOPOLY Game

## **\*\*About Monopoly Game\*\***

Monopoly Game makes it possible to play the popular board game now even on a smartphone or tablet. As in the original, Monopoly Game is about buying and managing properties.

With Monopoly Game you can now experience the popular board game on the go. Play games on the original board and buy and sell well-known properties such as Boardwalk or Marvin Gardens. You can play Monopoly Game either against computer opponents or against up to 3 friends. For this, you simply have to connect your devices via a local Wi-Fi connection or via Bluetooth. You also have the option to customize the game environment and the number of players.

## **\*\*Monopoly Game - Features:\*\***

- Monopoly on the go: With Monopoly Game you can play the popular board game anytime and anywhere. Here the well-known game design awaits you, from the original playing field to famous properties such as Boardwalk or Park Place. As in the original, Monopoly Game is about buying, selling and exchanging properties. The playing field consists of many different real estates, from expensive to cheap properties. When you buy properties and place houses there, the other players have to pay money as soon as they enter your property.
- Easy control: Monopoly Game has a simple control, so that you can enjoy the best gaming experience also on your smartphone or tablet. For example, to roll the dice, you just have to shake your device. Simply tapping on the screen also allows you to manage properties, build hotels, or draw special event cards.
- Customize the game: A big advantage of Monopoly Game is that you can adapt the game to the number of players or your personal taste. For example, you have the option to change the so-called "game rules" or to select a new game environment each round.
- Play against friends: You can play Monopoly Game either against computer opponents or against up to 3 of your friends. For this you simply have to connect your devices via a local WiFi. You also have the opportunity to play the so-called Pass'N Play Multiplayer mode. Here, the smartphone is passed after every move of a player. Up to 2 friends can also be challenged via Bluetooth.

**Conclusion:** With Monopoly Game you can play the popular board game also on your smartphone or tablet. The mobile game combines well-known elements such as the original board or famous properties with new and innovative features such as the multiplayer function via Wi-Fi or Bluetooth.
