

PayPal: Mobile Cash

****About PayPal****

The PayPal app allows users to access their PayPal account also when they are on the move. With the help of the app, you always keep track of all transactions and the available PayPal credit.

With the PayPal App you can now use the popular online payment service on your smartphone or tablet. The app gives you an overview of all transactions, even when you're on the go. Once credits are debited or received, you will receive a push notification within a few seconds. You also have the possibility to send money to friends or relatives free of charge. All you need is the recipient's e-mail address. With the help of the app you always keep an eye on your bank account, your credit cards and your PayPal credit.

****PayPal - Features:****

- Overview of your PayPal account: The PayPal app gives you a good overview of all transactions made with PayPal. Keep track of the movements on your PayPal account even when you're on the move. Manage your bank account, credit cards or PayPal credit with just a few clicks and complete purchases in seconds. In order that you do not miss a movement on your account, the app sends you a push message on your smartphone or tablet every time a transaction is made. Because of that, you are always well informed about your PayPal account.
- Send money to your friends: A big advantage of PayPal is that you can send money to friends or relatives with just a few clicks. To send money, all you need is the recipient's e-mail address. In addition, there are no fees for transactions within the EU. Of course, you can not only send money to friends or relatives, but also receive money yourself.

PayPal - What is it?

- Secure online payment service: PayPal is a popular online payment service, which convinces above all by fast and secure transactions. PayPal's payment system can be found on almost every online trading website by now. Since the user does not have to specify his credit card information or his bank details every time he wants to pay, but is simply forwarded to PayPal for payment, the user enjoys an uncomplicated shopping experience. A special feature of PayPal is also that all transfers are credited within seconds. Most purchases are also covered by PayPal Buyer Protection.

Conclusion: With the PayPal app you can use all features of the popular online payment service and keep track of all transactions now also on your smartphone or tablet.
