****Street Fighter IV CE - Features:****

- Fight with powerful warriors: Street Fighter IV CE is all about hurting your opponent until he is knocked out. You have a total of 31 powerful and unique warriors available. Since very recently you can also use the three new female warriors Juri, Elena and Rose.
- Use strong techniques: In order to hurt your opponent best possible, choosing the right attack is crucial. Since the game's controls are optimized for the smartphone's interface and the use with mobile devices, special techniques and powerful super- and ultra-combos can be performed with just a few touches.
- Single player or multiplayer: You can play Street Fighter IV CE either alone or against players from all around the world. You just have to connect yourself to other opponents via Wi-Fi or your mobile data and you're ready to go. The latest update also introduces a new helpful feature. If your opponent's internet connection breaks down during the fight, the AI takes the control over the fighter. This allows you to enjoy the fight and your victory till the end.
- Four difficulty levels: Street Fighter IV CE can be played in four different levels of difficulty, allowing you to adapt the game optimally to your abilities and performances.
- Touch screen or MFi controller: The game can be controlled not only on the touch screen of your smartphone or tablet, but also with an MFi controller. When you play Street Fighter IV CE with the MFi controller, even your mobile device feels like a console.

Conclusion: Street Fighter IV CE is one of the most popular Beat'em Up games for smartphones and tablets. Since you have a total of 31 different warriors available and you can fight against players from all over the world in real time, the game always remains varied and exciting.
