

ToonCamera

****About ToonCamera****

With ToonCamera photos or videos can easily be turned into a cartoon. Users can either take photos or videos directly with this effect, or edit images later.

ToonCamera turns your photos into something very special. In the app, you can turn your photos and videos into real cartoon artwork. You have the choice whether you take photos or videos directly with this effect or if you edit images from your gallery with the cartoon effect later. You can then share your finished cartoon images on social networks like Facebook or Instagram or create a personal poster of your cartoon artwork.

****ToonCamera - Functions:****

- Transform your photos: The ToonCamera app turns your photos and videos into unique cartoon artwork in seconds. For this you have several cartoon effects, pencils, brushes and color effects to choose from, which you can use on your image. Create a special piece of art and give that certain something to your photo or video.
- Take Photos and Videos: To add this special cartoon filter to a photo or video, you can easily use your smartphone or tablet's camera. The app will give you a preview of the effect, so you can see your environment in cartoon-style as you take the video or photo.
- Convert your images: Another way to add cartoon effects to your images is to edit photos and videos in the app afterwards. Select photos or videos from your gallery and add the cartoon effect later.
- Share your artwork: You can save all your creations on your smartphone or tablet. You also have the opportunity to share your artworks directly with your friends via Facebook, Twitter, Instagram or YouTube.
- Create your poster: If you want to view your cartoon image not only on your smartphone or tablet, but also in print, you can create a poster or a canvas print directly in the app. This allows you to hang your creations even at your home.

Conclusion: ToonCamera is a funny app that turns your photos and videos into unique cartoon artwork. You can either take photos and videos directly with the cartoon effect, or you can edit photos from your gallery later. No matter how you do it, your photos or videos are definitely something special.
