In Top Eleven 2018 Soccer Manager, you step into the shoes of a football manager. Your task here is to build your own club, which has both strong players and the right game strategy. Put your team together, train your players hard, and compete against managers from all around the world in numerous matches. The design of your team and club are entirely up to you. You can decide what the jersey should look like, how your team should be trained or in which line-up you should play. If you have put together a strong team and have trained enough, you can also play in various leagues, at cup matches or in the Champions League and win first-class trophies.

****Top Eleven 2018 Soccer Manager – Functions:****

- Build your own club: In Top Eleven 2018 you step into the shoes of a football manager who is at the beginning of his career. First, you have to build your own club. Think about the name of your club, create a club crest and design the jerseys of your club. Here you can really design and choose everything yourself. In order that your club also has an attractive home, the construction of your own stadium is also important.
- Put your team together: A team needs players. That's why you have to choose strong players for your team. Browse the live transfer market for strong players that fit your budget and engage them in just a few clicks. In addition, you can create your own training sessions to best train your players and improve their skills. Think also of a strategically well line-up of your team to win as many games as possible.
- Multiplayer: In Top Eleven 2018 you can either play against your friends or against other football managers from all around the world. You also have the possibility to challenge other football managers daily for special friendly matches and competitions. Compete with other managers and find out who has put together the best team.
- Win trophies: When you compete with your team in various international leagues, cup matches or the Champions League, you can win top-notch trophies and titles that increase your club's image.

Conclusion: Top Eleven 2018 Soccer Manager is an absolute must for all football fans, which allows you to build and train your own football team.
